

Manual for preparation and submission the Work

Deadline for application and participation with Work title is December 31st 2010.

Principal articles of work: title, preamble, model and methods, results and discussion, conclusion, literature in Montenegrin and rudiments in English language.

Elaborate must be divided on partitions, with numbering for subtitles. For numbering, must be used Arabic numbers like at next sample:

2. Model and methods, 2.1. Subtitle, 2.1.1. Subsubtitle,

Conclusion must imply what is Works issue or what does it suggests.

A rudiment presents conscientious reflection of intention, reference and result of scientific work and it is written in Montenegrin and in English language with allegation of keywords.

Works are written in Montenegrin or English language. **Maximal Works size is five pages of A4 format with letter size 12pt.** All margins should be each 2cm. Work should be made in MSWORD editor in US ASCII code line (Times New Roman).

Names of authors (12pt, 'bold italic'), induce two spaces from top margin. In sequel after comma, induce names of institution in which the authors are employees ('italic'). Works title is written in capital letters (caps lock) in middle of page, two spaces between names, in 'bold' size of letters 12pt. Maximal length of title is two lines. Subtitle is written with gap of one space, between texts. In Works, text space is 1 (single). New line is made by infiltrating for 1cm. With Work, it is obligation to convey rudiments in English language. Length of rudiment is half of page A5 format, text is written in 'italic' font with letter size 12pt. Margins, spaces, new lines, have rules, which matter for Work as whole.

A-2. Pictures, table, formulas

Tables and pictures are retracted in text. Above table, apropos below picture, sequel number and name (Table 3:....; Picture 2:....) in same font as Works text. Within apropos, tables and pictures are centralized.

Formulas are written in the middle of the line with number in right side.

A-3. Literature

In the end of Work, with subtitle 'Literature', sequel the list of titles which are used as literature within writing the work, in next way:

Ordinal, author, (publishing year), title (italic), publisher.

If it is a title from magazine or messenger, title is written between quotes.

Convey of Work (rudimental in Montenegrin and English language until 31.12.2010.; whole Work until 01.03.2011.)

- Author rights in sport
- Publish action in sport
- Sport in EU

Dear friends,

It is our great pleasure to invite you to participate on our Seventh international congress and Eighth international conference of Montenegrin sports academy because we are more than convinced that international practise need multidisciplinary knowledge. That knowledge would be learning on the international congresses like this one. Guarantee for this is respectful list of the participants from different countries that already confirm their presence. This is the way to expand and not just gather knowledge. That is our mission and our future.

Guarantee for final success of upcoming scientific gathering is the way to show our dignity which we have built for years under slogan: to research, to complete research work and to publish it. You are also witnesses that Montenegrin sport's academy knows modern processes and that through scientific works which will be presented to public, not just sport public, but even more. Without this our road would be much shorter.

Montenegro always showed special attention and understanding when it comes to our profession and sport as its area of work, since it is important area of promotion of its potentials and values as well as affirmation of the county itself.

Montenegrin sport's academy is there to do its best on affirmation of the country and its sport potentials and through science approach to physical education itself. Leading scientists from the region and more have taken part on the assemblies so far, and in our respectable magazine for sport, physical education and health "SPORT MONT" with international distribution and editing we have published more than 600 expert and scientific works by as much authors and co-authors on more than 5000 pages of printed texts that found place in all the major libraries. We believe that upcoming scientific gathering will be greater than any before in quality as well as quantity and of course because of your participation in it.

Welcome to Montenegro!

**President of Montenegrin Sport Academy,
Prof. dr Duško Bjelica**
